

Mingo Gas Separators

Mingo has been manufacturing rotary and vortex style gas separators for nearly 30 years. These field proven, cost effective designs are perfect for traditional applications with gas liquid ratios too high for traditional pump stage volume limits.

Mingo separators are adaptable to multiple product lines and offered in 338,400, and 513 series options. For added AR support, tungsten carbide shaft bearings as well as corrosion and abrasive resistant coatings can be applied.

Features and Benefits

› **FIELD PROVEN**

Low cost, worry free

› **AR BEARING AND COATINGS**

Additional support, less vibration, longer run times

› **VORTEX STYLE**

More efficient at higher GLR's

› **MANUFACTURED IN OWASSO, OK**

High quality product with accessible local support

P/N	DESCRIPTION	SERIES	LENGTH
C-6434	MG R3 LT	338	26.125"
B-8080	MG R3 LT HSS	338	26.875
B-5510/B-11137	MG R3 UT	338	26.625
C-4368	MG R4 LT w Screen	400	32.00
B-11254	MG V4 LT 3B	400	35.90"
B-11133	MG R4-UT	400	32.25"
C-4994	MG R5-LT	500	45.03"
12232	MG V5 UT 3B	500	45.03"

*Both Vortex and Rotary options in 338, 400, 513 series available.

KEY DESIGNATION / OPTIONS

LT	LOWER TANDEM	UT	UPPER TANDEM
SST	316 STAINLESS STEEL	CS	CARBON
3B	3 BEARING	HSS	HIGH STRENGTH MONEL SHAFT
