

Thrust Chamber Assemblies

Heavy Duty Series

One of the industry innovators for Horizontal Pump Thrust Chambers Systems, our designs are operating on thousands of skids across the world. Our designs are API 610 compatible and can be used with either standard component seals or more complex cartridge applications. With designs capable of handling up to 2000 HP and 25,000 lbs of thrust load, we have a system that will fit your application. External coolers for higher temperature applications are also available.

MINGO

MANUFACTURING

AN ISO 9001:2015 COMPANY

FEATURES & BENEFITS

› BACK PULL OUT DESIGN

API 610 Compliant

› AIR COOLED DESIGN

Lower operating temps

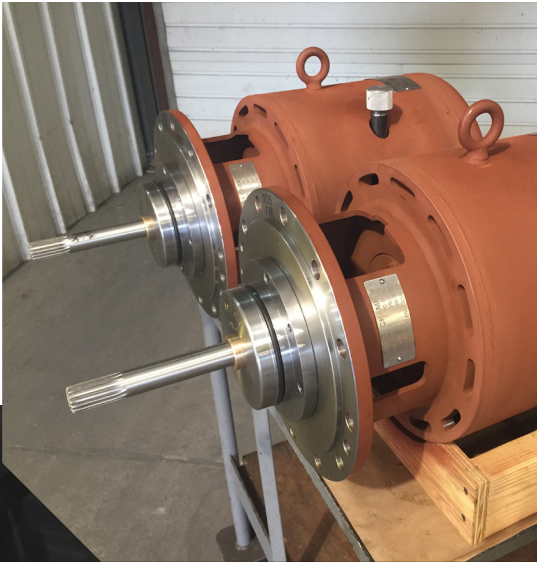

› CLOSE TOLERANCE MACHINING

Low vibration, long life

› 100% IN-HOUSE DESIGN & MANUFACTURE

Support & rebuilds readily available

MODEL	HP CAPACITY	THRUST CAPACITY	OIL TEMP LIMIT	SEAL TYPE	TEMP RISE
HD-LPS	1160	7,000 lbs	265 F	Type 2 / Cartridge	150 F
XHD-LPS	1160	14,000 lbs	265 F	Type 2 / Cartridge	150 F
TH-25	2000	25,000 lbs	Model Available in 2019
