## Job Description

Mingo Manufacturing, Inc. is seeking skilled CNC Machinists to join our production team. This position is responsible for setting up, operating, and maintaining CNC machines to produce precision parts according to specifications. The CNC Machinist must demonstrate strong attention to detail, mechanical aptitude, and a commitment to safety, quality, and efficiency. This role is essential in ensuring that parts are manufactured accurately and meet company and customer standards.

## Responsibilities

### Machine Setup and Operation

- Set up and operate CNC machines, including mills, lathes, drills, and grinders, to perform precision machining operations
- Load raw materials and components into machines and ensure proper alignment and positioning
- Translate blueprints, mechanical drawings, and job specifications into machine instructions
- Input or edit machine programs as necessary to produce parts according to specifications
- Perform test runs and make adjustments to ensure parts meet required tolerances

### Production and Quality Control

- Monitor machine operation to ensure parts are produced efficiently and accurately
- Inspect finished parts using precision measuring tools such as calipers, micrometers, and gauges
- Verify finished products meet blueprint specifications and quality standards
- Identify and report defects, inconsistencies, or equipment issues to supervision

### Maintenance and Safety

- Perform routine machine maintenance and cleaning to ensure proper functionality
- Follow all company safety policies, procedures, and OSHA guidelines
- Maintain a clean and organized work area
- Properly use required personal protective equipment (PPE) at all times

## Requirements

### Education and Experience

- High school diploma or equivalent required
- Technical school training in machining or equivalent work experience preferred
- Demonstrated knowledge of CNC machining processes and equipment
- Ability to read and interpret blueprints, mechanical drawings, and GD&T (Geometric Dimensioning and Tolerancing)

### Skills and Competencie

- Strong mechanical aptitude and troubleshooting skills
- Ability to perform basic to intermediate mathematical calculations
- Strong attention to detail and accuracy
- Ability to work independently and exercise sound judgment
- Good verbal and written communication skills
- Strong organizational and problem-solving abilities
